SUZUKI C-10 & NMEA 2000 ACCESSORIES PARTS LIST

Suzuki Color Display Kit

990C0-04C10-KIT Suzuki Color Display Kit includes:		
Part Number	Description	Qty
990C0-05C10	Suzuki Color Display	1
990C0-88114	Male Terminator	1
990C0-88113	Female Terminator	1
990C0-88110	NMEA “T”	2
990C0-88112	Power Cable + Network T	1
990C0-88149-357	Interface Cable	1

How It Works

- Bright, full color 320 x 240 LED screen makes it easier to see menus and screen detail in both full sunlight and night operation
- Fits standard 3-3/8” gauge cutout
- Each C-10 gauge will display engine info from 1 or 2 engines
- Preconfigured pages or create your own
- Micro USB for software updates (update cable required)
- Power and data through single NMEA 2000 micro-C connector
- Low profile front mount – 8 mm of dash (rear mount option for “glass dash” installations)

Suzuki C-10 Cover

This cover protects the Suzuki Color Display (C-10) from the elements. Use the cover to extend the life of your Suzuki C-10 Color Gauges.

Suzuki Engine Connect Gateway

990C0-88171	Suzuki Connect Gateway	The Suzuki Engine Connect Gateway provides Suzuki engine information, diagnostic codes and proprietary pop-up messages on compatible Simrad and Lowrance Multi-Function display (MFD) units. Note: Do not utilize C10 gauges with the Suzuki Connect Gateway. Only one Suzuki Connect Gateway is required per vessel. In multiple engine applications, each additional engine will require a standard Suzuki engine interface.
34923-96L13	Gateway Interface	The Suzuki 4 Tank Gateway provides engine information to third party MFD's (Multi-Function Displays) for newer Suzuki Digital Engines with SPC 2.0 and Suki Mechanical Engines with the CAN Mechanical Harness (Serial range 54000~ and newer mechanical models only). The Gateway has 4 fuel tank connections, that when programed with a C10, can display up to 4 fuel tank levels on third party MFD's. C10 must have software v23.1 or newer. Do not use in conjunction with SMG's.

The Suzuki Color Display is a LED high-resolution screen that has very sharp, crisp lines and is extremely easy to read. It has a bonded glass front screen so whether it be sun, salt, or UV rays, your screen will never blur or fade like a plastic cover. The C-10 has its mounting points in the front so there is no need to crawl under your console to mount it. There is one easy connection to Suzuki's digital harness. Save your favorite programming and update the display using the Mini USB port. The C-10 is able to monitor functions such as RPM, Speed*, Water Pressure*, Fuel Level*, Fuel Consumption, Coolant Temperature, Oil Level, Oil Temperature, Trim Level, Hours, or Volts. The C-10 is able to monitor up to 2 engines simultaneously. The Suzuki C-10 can be retro-fitted, to replace a 4” round gauge. (* additional sensors required)

MECHANICAL CONTROLS

Single Binnacle Control Box

Single Binnacle Control Box uses a convenient thumb-operated power trim and tilt switch, push-button shifting disengagement, for faster warm-ups and built-in neutral safety switch. Main wiring harness, ignition switch, and control cable must be ordered separately, see pages 25, 30, and 31 for options.

-------------	--------------------------------------

Flush Mount Binnacle Control Box

Suzuki's top quality Flush Mount Control Box features include a smooth action thumb-controlled power trim and tilt switch, a convenient push button to disengage transmission for throttle only, and a built-in neutral safety switch. Reversible for left hand installations. Main wiring harness, ignition switch, and control cable must be purchased separately, see pages XXXX for options.

67200-93J34	Flush Mount Control Box
-------------	-------------------------

Dual Binnacle Control Box

Dual Binnacle Control Box includes the same features as the Single Binnacle Control Box, plus a unique base mounted PTT system allowing you to trim the motors individually then adjust them together for maximum performance. Main wiring harness, ignition switch, and control cable must be ordered separately, see pages 25, 30, and 31 for options.

67200-88L13	Dual Binnacle Control Box Assembly
-------------	------------------------------------

Side Mount Control Boxes

Side Mount Control Boxes can be tailored to your needs. Standard features include a fast idle lever for easy warm-ups, a key-type ignition switch, and an emergency stop switch. Main Wiring Harness and control cables ordered separately. See page 31 for options.

Suzuki Performance Remote Control Cables

Suzuki Performance Cables have a unique design that incorporates a patent-pending splined core. Ridges on the core allow a close fit to the cable's inner liner with minimum contact, allowing the core to glide back and forth smoothly. All cables are factory tested and approved for heavy use applications. Order cable length as needed.

Trolling Mode Control Switch

Allows the use of the Suzuki Troll Mode on equipped engines. When Troll Mode is engaged, this switch allows for adjustments of engine RPM in 50 RPM increments, from idle to 1,200 RPM to make setting and maintaining a trolling speed easy. Consult owner’s manual or Suzuki Outboard Dealer for additional details on Suzuki Troll System operation.

4” Tachometer With Suzuki Troll Mode Scale

Easy to read 4” Tachometer has a scale from 0-7,000 RPM for standard use and a secondary scale from 0-3,000 RPM with markers at 50 RPM intervals for use with the Suzuki Troll Mode System. Gauge also includes warning lamps for Engine Temperature, Low Oil, Check Engine, and Over-Rev. When in Troll Mode, Over-Rev Lamp stays on to indicate that Troll Mode has been engaged. The secondary RPM scale is designed to make setting and maintaining a lower troll speed simple. Fits DF40 A/50A/50AV/60A/60AV/75A/90A/115A/140A (DF300/350A requires C-10 gauges) *See engine owner’s manual for information about Suzuki Troll Mode System. Not all models come equipped with trolling mode system. Accessory Troll Mode Switch is required for Suzuki Troll Mode System use. Suzuki recommends the use of this gauge for trolling use.

State-of-the-art filter removes water and other contaminants from the fuel before they reach your engine. It features a transparent removable bowl for easy viewing of the fuel condition and a drain valve for water and other impurities. Due to the high flow rate capabilities of this filter system, a special large diameter thread is used. Use only Genuine Suzuki Replacement Filters. Standard size filter applicable to all models, but recommended 150 and greater. Compact size filter is recommended for engines up to 140HP, not recommended for engines 150HP and greater.

Development of Suzuki's First Contra-Rotating Propeller

After years of outboard design, Suzuki engineers knew that the shape of the lower unit and the design of the propeller would have a critical impact on performance. The increased power of the new engine required more powerful gears, and more powerful gears were typically larger. After considering alternatives, an innovative idea was proposed: design a contra-rotating dual propeller system. The contra-rotating propeller would certainly provide more “grip” underwater, and because contra-rotating propellers distribute the engine torque evenly over the two propellers, the torque per propeller decreases and gear diameter can be reduced. A reduction in gear diameter could then lead to the design of a smaller, more hydrodynamic gear case.

Quickly cleans deposits in gasoline injectors and helps to avoid costly injector replacement. Also helps prevent deposit build up with regular use and will not harm catalytic converters or oxygen sensors. Mix ratio 1:1, 12oz bottle treats 12 gallons of gasoline.

990A0-02E25-12Z	12 Fluid oz. Bottle	12/Case
-----------------	---------------------	---------

Performance Low VOC Cleaner

Blasts away brake fluid, dirt and contaminants quickly and easily with no residue. Helps stop annoying brake squeal and chatter. Cleans disc and drum assemblies, including springs, rotors and pads. Great for your boat trailer!

990A0-04E16-15Z	14 oz. Can	12/Case
-----------------	------------	---------

Bond 1207B

1207B is used for sealing crankcases due to its outstanding resistance to heat and oil.

Splash Covers

Suzuki vented Splash Covers are custom made, tight-fitting covers that are designed to protect the outboard engine cowlings and decals from sun, spray, salt, birds, errant fish hooks, and anything else that can compromise the factory finish while the engine is running. The Polysoft II fabric is a breathable, marine grade fabric that is 95% waterproof and 5% breathable which ensures that moisture will not be trapped under the cover. This 100% woven polyester fabric is UV stabilized to resist fading and rotting. The soft non-woven lining will not scuff or damage your cowling when installed. Splash Covers are easy to clean and will be sure to turn heads!
